

Build Your Own Bird Feeder

Pine Cone Feeder

Supplies:

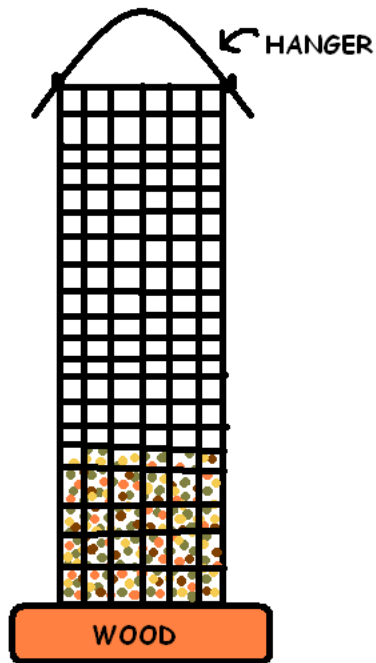

- Pinecone
- Peanut Butter
- Birdseed (for small birds)
- Lightweight Wire, Yarn, or Ribbon

Instructions:

1. Securely wrap the wire around the top of the pinecone to make a hanger
2. Cover the pinecone with peanut butter and roll it in the birdseed
3. Hang and watch the birds enjoy!

Wait and watch... give the birds some time to find it!

Mesh Tube Feeder

Supplies:

- 1/4" Wire Mesh
- Lightweight wire
- Nails/Staples
- Hammer
- Scrap of Wood or Jar Lid
- Birdseed

Instructions:

1. Make a tube (any size) of the wire mesh and fasten it closed with the wire
2. Close off the bottom of the tube by nailing or stapling it to the wood or jar lid (or anything else that you think might work!)
3. Use some of the leftover wire to make a hanger for your new feeder
4. Fill with bird seed and hang!

Wait and watch... give the birds some time to find it!
